### **Our Whole-Body Approach to Dermatologic Services**

## Physician Services

**Botox and Dysport** are safe treatments to relax the muscles that cause lines in the face. Popular areas treated are forehead frown lines and lines around the eyes. 30 minute appointments.

If you are bothered by fine lines and wrinkles, natural dermal fillers may be the right treatment for you. With age, the skin experiences a depletion of collagen and, consequently, a loss of volume. The results of dermal fillers are immediate and can last six months to a year. Dr. Anderson will help you determine which filler is appropriate for you. 30 minute appointments.
